

ac150 Action Cam

The HP ac150 Action Cam is the perfect camera for any environment. This action cam is perfect for your underwater adventures and then seamlessly transitions to your bike mount for a ride in the rain and mud. With the quick open latch you can easily take it out of its waterproof case and it becomes an easy-to-use point-and-shoot camera to capture all your adventure memories. The wide-angle lens and full 1080p HD video allows you to take exceptional videos and pictures in any environment. The waterproof case is quickly mountable in many configurations to assure you can get the camera in the ideal location to get the perfect shot or video.

Easy to mount, extremely durable, and flexible waterproof enclosure

The included waterproof case is ready to go right out of the box. It can be easily mounted to a dive mask, bike handlebars, flexible gooseneck for endless positioning options and many other configurations. The case has six integrated waterproof buttons that give you full access to the entire camera features without having to remove it from the case. With the small size and light weight this camera is perfect to keep with all your adventure equipment to make sure you never miss another video opportunity.

142° Ultra Wide Angle Lens to capture any adventure

With a high quality, ultra wide 142° lens the HP ac150 is the perfect camera to make sure you capture the entire scene. The high quality optics give you clear, crisp videos and pictures from edge to edge without annoying distortion. You view this entire process on the bright 1.5" display. This allows you to take high grade video and photos and review them to make sure you have captured your important memories. All this capability and ac150 still fits nicely in your dive case, ski gloves bag or any type of storage you use for your adventure equipment.

Full set of camera control buttons for easy setup

With the bright 1.5" display and the easily accessible buttons, both in the waterproof case and out, the ac150 Action Cam is easy to configure to select the best mode for your video or picture needs. The setup menu allows you to control all key image quality attributes like white balance to control lighting type, ISO equivalent, and many others. You can also leave the HP ac150 in automatic mode and the camera will take care of the setup for you.

Built in microphone and speaker

The HP ac150 comes with built-in microphone and speaker so you get real-time sound capture with your video. The built-in speaker allows you to not only review video on the built-in LCD display it also lets you review the audio to assure you have captured your complete memory.

Full HD 1080p video recording

Only need one camera for high quality pictures and video. With a push of a button the camera changes from camera to video mode for easy high quality video.
